

"Dolly is a caring, patient and thorough practitioner. Immediately I saw that Dolly knew what to do. Through her accurate measurements, various tests and setting goals, she was able to help my injured hand back to life! Thank you for not giving up Dolly!"

Laurie Freed, Certified Iyengar Yoga Instructor

I'm so fortunate to be receiving occupational therapy from Dolly. She is knowledgeable, compassionate and highly skilled. Her expertise is helping my right arm on the road to recovery.

Janet K.

"After I broke my wrist, Dolly was so awesome in helping me get back my mobility and strength. She is friendly, efficient and most of all, very knowledgeable about her profession. I highly recommend her!"

Cynthia Haws

Working with you was rewarding. It shortened the recovery time and the homework complimented this. I heartily recommend you.

Thanks  
Goldie

"I have worked with and known Dolly for years. Her "care" with Hand and Oncology patients is exemplary, wonderfully extraordinary. I say "care" because she approaches each case as if she was treating her own family member. One with compassion, respect and support. It is amazing and an honor to know and work with such a skillful, joyful individual."

Dianne Miklos OTR

"I have had the pleasure of knowing Dolly as a friend, mentor and colleague for many years. She has always demonstrated being a very capable, caring and compassionate therapist. Her combination of clinical and people skills combined with a great sense of humor makes therapy fun and effective. I'm glad to see her having success in Hawaii but would love to have her working back in my clinic!"

Tim Tracy OTR, CHT  
Tracy Hand & Occupational Therapy

I highly recommend Dolly Foley to any patient who needs excellent care. Dolly is knowledgeable, professional, kind, and compassionate. I am a breast cancer patient, and Dolly taught me exercises that I can do at home to help my muscles recover, as well as lymphedema exercises to prevent swelling in my body caused by fluid. Dolly patiently answered all of my questions, and was genuinely happy when I felt better. I recently underwent a 2nd mastectomy, and will be returning as a patient to Dolly. As someone who has been through this process twice now, I obviously want the best therapist to assist in my recovery. Dolly Foley is my choice, and I know anyone who avails themselves of her services will be glad she is theirs.

Aloha,  
Anita Wedemeyer

Dolly has a wonderful combination of professionalism, skill, compassion, and positive attitude. All of these things provide her patients with the optimal environment for healing. I have had the pleasure of working with Dolly and seeing her patients respond and improve. Dolly also brings fun to her work which is priceless!

I would recommend Dolly as therapist and as coworker and friend.

Alicia Hanta, OTR

**Dolly Foley. OTR/L, CLT, provided an exemplary level of therapy for me recently at Castle Performance & Rehabilitation Center-Kaneohe. There is measurable improvement in my condition and, equally as important, she supplied education and instruction for continuing wellbeing going forward. Now I know how to keep my hands strong and how to prevent injury in the future.**

**Dolly is knowledgeable and has a depth of experience in her field that equips her to treat her clients successfully. Most of all, she really cares. I'm deeply thankful to be one of her clients, not only for all she taught me about therapy but because she's a very special person as well.**

Sincerely,

A handwritten signature in black ink, appearing to read "Lynn M. Tilton". The signature is fluid and cursive, with a long horizontal stroke at the end.

Dolly's compassion, expertise, and work ethic exemplify the true heart of a clinician. She not only holds herself to the highest standard of care within her practice; this outlook also permeates her interaction with others on a personal and professional level. With each patient case, she proactively communicates with the interdisciplinary team and documents the necessary information to provide optimal patient care. This conveys her level of experience and understanding of the principle methods needed to achieve the patient's goals. It has been a pleasure working alongside Dolly in a variety of settings over the past 6 years and I have enjoyed tremendous professional growth as a result of our interactions.

Eric Torres, PT
